FASS?

The question that's probably burning in all your minds is: "FASS: are we not men?" The answer is: We are **Faculty, Administration, Staff, and Students**; a 17-year-old group of men and women from around campus who, every winter, stage U of W's musical revue. The script is written during the fall term, and auditions are held during the first week of January.

Money that is raised by FASS is used to donate to the university such items as: a follow spotlight, the headsets worn by members of the tech crew, and the piano in the Campus Center, to name a few.

Below is a list of the FASS '79 Committee, some of the people responsible for this year's effort

This year's title was chosen by Mark from a list of instantly forgettable titles suggested by Jim (not without some subtle resistance from Preston).

The plot itself? Well, you would have been spared the experience had the people listed below, intent on escaping from FASS, not thought of going on an ocean cruise.

Intermission

At the time of writing, it appears that the show will really only be two and a half hours long, so you *might* get a break at this point in the show.

On the other hand, if you haven't been laughing enough, Mike the SM may decide to give you all a detention instead. Then you'll have to listen to Steve tell jokes.

Speech from the Producer

FASS survives on good will. Without the co-operation we get from people within the University, FASS simply would not happen.

I am referring to all those people in : Accounts, Bookings, Central Box Office, Math Faculty Computing Facility, Security, and especially Graphic Services, who were helpful, rather than officious.

In particular :

- ☐ Olaf Naese, and Betty, Pat, and Barb, in the Central Box Office for *endless* help and advice.
- ☐ Earl Steiler for advice and good humor.
- ☐ Marion, Cathy, and Dick at Graphic Services, for everything.
- ☐ Zell at Bookings, for that great smile.
- ☐ WCRI for a party room.
- ☐ CKMS for staying tuned.
- ☐ Jim Swann for helping Henry Morgan Light get plastered.
- ☐ And finally, Mark McGuire, who did our posters, and who has been a great booster.

There were many people who gave me invaluable assistance at critical times. My sincere thanks to them all, especially to Bernie and Eric for typesetting the programme, and to Ron, Mike, Ian!, and Dave, ... for just being there.

— Mark Winnett
